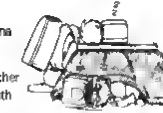
TRANSLATION NOTES FOR CHAPTER 9:



– In page 9 Bratsche says "Chokochoko shite" when talking about Shchel. My dictionary says chokochoko means "trotting, toddling" and similars. I m not gonna lie to you I m stumped does she mean Shchel s like a baby?

– Lute calls Percuss 教頭 which can mean either Vice Principal or Head Teacher Nothing in the text really tells me which of them he is so from now on I'll go with Head Teacher for absolutely no reason at all

– The mystery of Great s name seems resolved now it comes from "Great Demon K ng Chestra" But before you call his parents retarded for giving him a name like that, In japanese the monster actually says "Dai Ma Oh Kestra". It seems Watanabe picked out a meaningful name from the english translation of Chestra s title Just to sound suitably foreign

ADVANCED ANTI-MAGIC DEFENSE WAS APPARENTLY ACTIVATED ON THE BROKEN PADLOCK.

TRANSLATION NOTES FOR CHAPTER 13:

– Clan's official title, as current head of Sforzando's government, is 司聖官 - Shiseikan. 司 means "director, official, govt office, rule, administer", 聖 means "holy, saint, sage, master, priest", and 官 means "bureaucrat, the government". What would be a decent adaptation of this title? "Director of the Holy Government"? Is "Holy Regent" a decent option? I'm using "Holy Regent" for now, but I'm open for better ideas.

– 魔法使い (Mahou Tsukai) means "great magic user". I've been translating it into a number of different things, such as "wizard", "sorceror", never managing to settle for one translation. A couple days before completing this file, though, I found the words "warrior mage" in some RPG forum I can't remember, and found it to be a good description of the members of the Magicorps. From now on, I'll be translating "Mahou Tsukai" as "Warrior Mage" (Funnily enough, Shchel wants to become a 大魔法使い, which would become "Great Warrior Mage". Considering who his best friend is...)

TRANSLATION NOTES FOR CHAPTER 14:

– In page 07, "worrisome" can also mean "troublesome" or "burdensome". So, one could take Clan's words to mean the students were misbehaving and undisciplined children, while they actually meant that, well, they were just plain dangerous (like Great).

– Once again, Bounshou=Rei and his tacking "aru" in the end of everything. It was transliterated as "al" and kept, even when it kinda broke the mood. Strangely, Bonshou sometimes skipped the verbal tic.

– Bonshou=Rei's techniques were transliterated in the speech bubbles, and translated outside in small fonts. Done because all the possible translations were awkward and narmtastic, and the original japanese sounded cooler anyway.

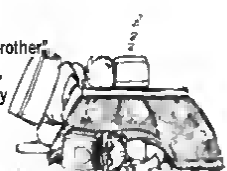
TRANSLATION NOTES FOR CHAPTER 16:



– Nii-san, in case of readers who aren't used to basic Japanese terms, means "big brother". So does "Aniki", though the latter is considered impolite at best, thuggish at worst, and is usually associated with Yakuza. I kept these terms untranslated because they make an interesting contrast between sweet, little kid Great's attitude and teenaged Great's.

– Hamel and Flute in the flashback call each other "Tou-san" and "Kaa-san". This obviously doesn't mean they're each other's mother and father, it's an old-fashioned way for a married couple with kids to refer to each other, as family members were usually referred to in relation to the youngest member of the household (this practice is somewhat faded, and mostly used by self-admitted old-fashioned "bakapuru", or lovey-dovey couples). I translated those terms as "mama" and "papa" when they refer to each other, and when it's the kids referring to them, I translated as "mom" and "dad".

– Many thanks to the guys at #Nihongo irchighway for clarifying some tricky sentences (Lute's golem incantation among them).

SHCHELKUNCHIK PICTURE BOOK
FIRST: GREAT

Great's weapon is a magical violin but it's used in the standard manner set and played to the left He tries to play lots of magic music, but still can't match his father

The bow is originally supposed to be packed inside the violin case but I thought a gunman with guns akimbo looked cooler so I made him in this style

The protagonist of the original Hameln Daddy Hamel set his violin on the opposite side the right side This was because I chose to match the manga to its opening chapter

The violin is stowed in the left leg's case The twirling and turning and putting it away also brings the image of a gunman holstering his weapon

Daddy fought by controlling "Mammy Flute" with several different magic melodies Great made Shchel fight by playing "Sigfried" but right now he mainly uses magic music to mock people

TCH... WHAT A PAIN!
